June 20, 1978

Dear Harold,

There's very little to report from out here since my letter of 5/26, which I trust did reach you (including the Scott-Epstein tape). "Inquiry" has finally published our review of Epstein.

I got a nice letter from Evans at the Senate Committee, and I gave him some additional information on the mail-intercept matter.

Enclosed is a list for FBI #490-526, plus all 14 *** pages from that batch. Nothing really special, but a couple of interesting leads which should be checked out.

If the HSC hearings do happen after Labor Day, I'll try to be there. See you there?

With best regards,

Paul
